

## Invitation for the nomination of participants at the 29<sup>th</sup> European Young Geotechnical Engineers Conference

The Croatian Geotechnical Society will host the 29<sup>th</sup> European Young Geotechnical Engineers Conference (EYGEC) in Rijeka, Croatia, from **09-12 September 2025**.

We invite all the European ISSMGE member societies to nominate young engineers, M.Sc., and PhD students to present their work in geotechnical engineering. Each national society is encouraged to nominate **two candidates** to attend the conference. Depending on the number of nominated candidates, it is possible to invite more than two candidates per national society. In this case of nomination more than two candidates, national committee should inform us no later than 15 January 2025.

Like the previous valuable conferences of European young geotechnical engineers, the event in Rijeka aims to create a solid foundation for young European geotechnical engineers to establish contacts and promote long-term collaboration. The organizer, the Croatian Geotechnical Society, and the international geotechnical community greatly appreciate the participation of representatives from national societies.

Please encourage young candidates from your national societies. Candidates need to register and send abstract on e-mail [eygrec2025@gradni.uniri.hr](mailto:eygrec2025@gradni.uniri.hr) until **15 December 2024**. Details of the conference can be found on the website <https://eygrec2025.uniri.hr/>.

In addition to the dates for conference candidates published on the website, the important dates for the national committees are as follows:

The EYGEC2025 Organizing Committee sends the list of registered candidates to the National Committee	15 December 2024
<b>The National Committee sends to the EYGEC2025 Organizing Committee the list of selected candidates</b>	<b>15 January 2025</b>
The National Committee and the candidate are informed of the abstract acceptance	20 January 2025
The EYGEC2025 Organizing Committee sends the received full papers to the National Committee	2 April 2025
<b>The National Committee sends to the EYGEC2025 Organizing Committee paper reviews</b>	<b>15 May 2025</b>
The EYGEC2025 Organizing Committee forwards the revised paper to the relevant National Committee for an overview	9 June 2025
<b>The National Committee submits the results of the revised paper to the EYGEC2025 Organizing Committee</b>	<b>13 June 2025</b>
The National Committee and the candidate are informed of the full paper acceptance	20 June 2025

Please adhere to the given deadlines so that the organization of the conference is not delayed.

In anticipation of positive news for the event, we send you our sincere regards,

Assoc. prof. Leo Matesic, PhD  
President of the Croatian  
Geotechnical Society
